Hi Pooja,

Please go ahead, and use the proper channels and approvals at Lilly to enable the open access. I believe Jibo will help out 😊.
Thanks, Gosia

Subject: Open source R package surfaltR

Hi Gosia,

Aditi and I would like to make our R package (surfaltR) open source and write up a short paper about it, we have already described it to Jibo and he sees no risk in making it open source. Jibo, Gordon and I are talking to other people in Lilly to make sure we follow the due process for making R packages open source.

I am writing this email to ask your permission for going ahead with this!

Thank you,
Pooja
